

PENTAGON 2000SQL
SOFTWARE EMPOWERING THE ENTERPRISE

Pentagon 2000SQL Shipping Manager

The *Pentagon 2000SQL Shipping Manager* is a PC-based, multi-carrier shipping system that will greatly enhance your operation's productivity while substantially reducing overall shipping costs.

Proven

Since the 1980s, the engine behind the Pentagon 2000SQL Shipping Manager has been the workhorse engine for a number of successfully branded shipping systems. Feedback from thousands of users has contributed to this flexible, efficient, easy-to-use, and cost-effective line of shipment automation solutions. Your modest investment in the Pentagon 2000SQL Shipping Manager will pay dividends well into the future.

Versatile

Whether your shipping process requires input from just a single customer database or calls for the exchange of data between multiple applications, the Pentagon 2000SQL Shipping Manager can be integrated into virtually any host system, database, and platform. The flagship Pentagon 2000SQL Shipping Manager is the only system you will ever need.

Scalable

Whether your daily shipping process involves a few parcels with a single carrier or several truckloads using all major carriers, the Multiple Station Network option enables the Pentagon 2000SQL Shipping Manager to process an unlimited number of transactions in a single shipping period. The Pentagon 2000SQL Shipping Manager is intended to grow along with your operation.

Embedded

For companies that wish to incorporate carrier-compliant shipping functionality into their own applications, the Pentagon 2000SQL Shipping Manager is a comprehensive, behind-the-scenes, multi-carrier shipping engine. As the demands of your shipping operation grow, the Pentagon 2000SQL Shipping Manager eliminates the burden of maintaining frequent carrier rate and methodology changes and allows you to focus on your core business functions.

Economical

The Pentagon 2000SQL Shipping Manager offers several cost-saving features that include small parcel and LTL rate shopping, Proof-of-Delivery reporting, third-party parcel insurance, shipment optimization, hands-free operation, and an overall reduction in paperwork. If there is a way to save shipping costs, the Pentagon 2000SQL Shipping Manager will automate it for you.

Competitive

The engine behind the Pentagon 2000SQL Shipping Manager was recently selected as the product best positioned to replace the recently obsolete line of APSS shipping solutions provided by Kewill. Selecting a market leader like the Pentagon 2000SQL Shipping Manager, translates into superior solutions at affordable prices.
